What the numbers mean

Email-ready: 55 organizations have at least one publicly listed, correctly formatted email address. The list contains 60 email entries and 58 unique addresses.

Research-route: 56 organizations require an official form, telephone call, vendor application, LinkedIn research, or another route to identify the correct events buyer.

Important: Publicly listed and correctly formatted does not mean independently mailbox-verified. Delivery is not guaranteed until messages are sent and bounce results are monitored.
